

LOCATES

New Building project in the community or have to do some digging?

Please call (or have your band or tribal council call) 1-800-400-doing a “locate”).

Call or click before you dig

Do you know what’s below? Underground infrastructure can be just below the surface of your lawn.

Before planting a tree or building a deck, it’s important for you or your contractor to request a locate first.

Remember to dig safe

Protect your property and loved ones

Prevent injuries

Avoid causing a power outage and costly repairs

Submit an underground locate request at OntarioOneCall.ca or 1.800.400.2255

Hydro One Remotes works like other utilities through the Ontario One-Call service network. Advanced notice is preferred. As part of our service, Remotes will locate, if able, all secondary and primary underground cables without charge if no special trip is required.
